The Casper Suite from JAMF Software
Inventory, deploy, and secure your Apple devices with ease

The Apple Management Experts

Since 2002, JAMF Software has been helping schools around the globe succeed with Apple. Long before Apple became the world's most valuable brand, the Casper Suite provided IT with the ability to automate the tasks associated with device deployment and management – all while empowering device users to be more creative, productive, and happier.

It's still the best Apple management tool today.

Whether you've been using Apple for years and have thousands in your schools, or are just beginning to integrate Apple devices into your learning programs, JAMF Software and the Casper Suite make management simple and secure. IT gain peace of mind and users get the experience they want.

JAMF

Why use the Casper Suite?

No platform offers a more exciting ecosystem or delivers a more productive user experience than Apple. And no tool manages Apple devices better than the Casper Suite.

Deploy Mac and iPad fast

You can integrate with Apple's Device Enrollment Program (DEP) to deploy without ever touching the device.

Collect dynamic inventory

Monitor hardware and software distribution by user or device, for more productive planning and budgeting.

Reduce risks and protect resources

Leverage the world-class native security tools that Apple builds into every device.

Save the day when life happens

Ensure peace of mind with remote lock and wipe, automated patches, and by reporting on backup status.

Support individualized learning

From Casper Focus to our proprietary Self Service app, we put tools in the hands of teachers and students, giving them one-stop, on-demand access to approved apps, software, eBooks, and content—all without help from IT.

Build an enterprise IT ecosystem

Maximize existing third-party tools and tie into your existing user directory.

Best-of-breed software is just the beginning of what you get

The simplicity, versatility, and robustness of the Casper Suite are just a few reasons our customer retention rate has always remained above 95%. Schools of all sizes also stick with JAMF for the additional value we provide:

Service

Whether remote or on-site, simple project management or soup-to-nuts implementation, our Apple-trained experts will provide exactly what you want to ensure your project is a success.

Support

Project failure is not an option, which is why we have a personalized support model allowing an unlimited number of inquiries to our global, world-class support team. You will work with a JAMF expert every time to personalize your experience with the software.

Training

Certified training courses—held all over the globe—build system admin's Apple and Casper Suite expertise and make them more valuable.

Ecosystem

Don't abandon the tools you already use. We're expert at making your good Apple tools enterprise-ready, and your favorite enterprise tools Apple-ready.

Community

Want an unbiased opinion? Our 25,000-plus member JAMF Nation is a vocal and helpful bunch, both on our popular community forum or, better yet, live at events like JNUC, meet-ups, and more.
